Meet Your Therapist

Welcome!

Life can be tough to navigate sometimes. We all need a little help at certain times, even if it is just to say:

"Yes, it is okay to feel this way".

I am available to you as a **sounding board**, a **listener**, a **place to unfold**, to **drop your armour** so you can take a deep breath and bring things into perspective.

You are your own best teacher, and I create a **holding space** in which we can do this together. When we sit in session, you may do this in the comfort of your own home, I in mine, or in my practice. We become fellow travellers, for a brief moment in time, online or in person.

Relationship Counsellor - Nicolette Ward

My name is Nicolette, but please call me Nikki. I am a partner, a mother, a daughter, cousin and live in a big blended cross-cultural international family! We often joke that our family is the *United Nations!* I have been through a quite a few life-changing experiences during my life, and I look forward to supporting you through some of your transitions!

I am a qualified, highly-experienced counsellor with a couple degrees and diplomas in counselling, psychology, kinesiology and technology. This helps me support people all aspects of their being. I am also connected to a hand-picked group of thought leaders, mentors, teachers and supervisors in the counselling and coaching space, so if I can't help you immediately, I can source answers from these seasoned professionals and experts I have trained with in this space. I am passionate about promoting and supporting joyous relationships and experiencing a life free of anxiety, depression and stress.

Let's Do This Together

When we travel together, I shine a light in the dark corners, so you can discover what is true for you - your own strengths, your own strategies and your own solutions for managing, and more often, resolving the imbalances in your life

Most of the time **you already have your own answers!** So while it may be that prior to counselling, you know you are in a pattern, and yet you can't seem to break out of it, it's here that working with a professional can guide you to finding how to work through where you are at.

We **look together** to bring the answers that are just sitting at the edge of your awareness to the foreground. My job is to empower you to get clear about your options, and support you to make informed decisions, that enable you to live your best life.

Qualified

I use all levels of our lives to support you to explore your own reasoning and decision-making skills, helping you take action to move in a different direction and to gain increased independence and self-esteem. I use a holistic set of and the very latest research from my peer and supervisor network.

My teachers are some of the most highly experienced people, some of whom are **front-runners and thought leaders in family constellation work, trauma, relationships, depression and anxiety.**

I use a holistic set of frameworks, backed by solid neuroscience. I also bring a wealth of life experience to the table, having lived in three countries and have been through several major life events myself.

I have also spent the last 10 years studying Polynesian healing systems, kahuna massage, kinesiology, and some zenthaishiatsu so my knowledge of anatomy, physiology and energetic systems also informs how I work with you.

No issue is off limits - we deal with anything really... life, just life.
